## **March 20 Brunch**

Let Stephanie know if you are bringing food to March 20 brunch. There will be a regular meeting starting at 9:30. Brunch starts around 10:30 ish.

## **Postcards**

**Jana** announcement - run out of postcards. But she has two packets of 20 each vote forward letters.

Jana dropped off 'thank you ' postcards at the Roundhouse  
She highly recommend it. Lots of fun!! Candy bars to the secretary. They loved it!!! Delightful couple of hours.

**Monica** - threw in a few extra cards in case you need it.

Chris Swaddle is hosting postcard writing at 2. Don't know which date.

## **Monthly Indivisible March 9th**

Pam attends them.

## **Rachel on Bills**

- SB19The saga continues. No new news. Senate and house met all weekend. Not seen yet to see promised committee sub.
- Everything proposed by Bill Reim has been tabled. Things we would have had worked to kill was killed by the legis. Pre-trial rebuttable was killed.
- Pre-trial detention going forward
- SB252 use of force. It isn't going to go anywhere but we might be stuck with something on SB19
- Constitutional revision bill going fast. Meet for two years and recommend changes from top to bottom. It's in House J to House fl to being done.
- Civil rights office for ATTY Gen. Last Cervantes bill. Going to Sen Judiciary. Passed House and Public yesterday
- Crime reduction act - this will go through.
- Expansion of human rights act has pass house and in Senate has a good chance.
- Corrections Advisory is on house calendar now.
- What's going on? Some bills are not moving. Dummy bills are for omnibus bills. This is what happens to save bills.
- Somos immigration bills - two Senate bills in Judiciary - prohibits immigration detention in NM which would put the private prisons out of business
- Another - under the radar SB 229 - immigration classification of children who arrive at the border without parents. Provide protection by the state. Avoid detention.
- HB 188 creates a transition office in development department. Others are trying to stick the bills. HB 215 unemployment benefits for undocumented and gig workers. Stuck in house appropriation committee.
- Senate Judiciary committee is a funnel. A lot of things stuck there. They are not posting a lot, hearing a lot of bills, a bunch of gun bills. Something to watch, [sjc.zoom@nmlegis.gov](mailto:sjc.zoom@nmlegis.gov) This goes to the staff and reports to Cervantes.

## **Liza**

- HB 7 final. Passed House/Senate - today they re convene post 11:30. This bill is #36
- SB 13 in SJ - don't know next step
- Affirmative Consent - passed on chamber

**Pam** - BH. No chance to be effective on this topic.

## **Barbara B Guns**

- HB 9 has passed. Passed both chambers going to the legis.
- 14 day waiting - no information. Was on house floor. Senate version went through on Saturday. It's a Cervantes bill. He makes things happens.
- Assault Weapons ban died.
- SB 428 - Cervantes bill. Manufacturers liability bill. Going to Judiciary committee. Another letter for that would be.

## **Jan**

- Changes to Game commission HB 184 doing well. Lots of support for this. They want a stable board for less politics and more science and a better distribution from the state. Don't know if Gov will sign because it takes power from her.
- Changing Game and Fish HB 486 dept struggling. Good news that people in involved understand that they need a better model - biodiversity rather than hunting.

## **Marti**

### **Health**

Nancy Rodriguez: second chair for senate finance

- Health SB 265 Study Medicaid Managed care structure. Fund a fund a study of medicaid structure. And consider alternative approaches to the almost half of New Mexicans of Medicare for Shelter, Food, etc. Going through House and Senate together.
- SB7 to make rural HC better passed on 1-31. Now nothing.
- SB290 and HB 293 - Last year there was junior money to do study. Went to Dept of Insurance and never did a study. In the absence of Lundstrom - they are not calling it Health Security - looking at costs.
- Housing trust fund \$. Multi-generational and zoning - have all passed one committee. And pass first week of Feb and not listed for hearing. Rachel suggests looking at the latest version of HB2. Sometimes they strip the appropriations from a bill and stick the money into HB 2. Probably get killed a proposal for housing dept. Right now \$ for affordable housing goes through a state authority. There's a lot of things about housing needs and state. Idea to have a dept for overall housing planning, etc. They pulled the housing trust fund control and put it in this housing bill. They should have just given Housing Dept more authority.

Economic justice - nothing on Universal Basic Income

- Rachel says that some of the bills being popular go dark because they are being worked behind the scenes.
- HB 144 increase the child income tax for kids would be more progressive.

- HB12 died. Will revive HB 188 is a good bill. Creates and funds an office to fund projects for people affected by uranium disaster. Or known things like closing San Juan Generating plant. What we do know about Hydrogen - she has staff of about 10 or 12 people getting applications for HHub. She is totally untrusted on this.
- Radioactive waste permit denial has passed at least one of the chambers.

#### Roberta

- HB173 Child witness protection passed. Now stuck in Senate J.
- HJR1 stuck in House Judiciary.
- HJR2 - 60
- HB4 passed the house and in Senate J.
